Present Address: Merul Badda, Dhaka, Bangladesh

OBJECTIVES

Pursuing a career in Web Development where I can apply my recent graduate education and passion for creating visually captivating websites. Leveraging my expertise in machine learning and computer vision, I aim to collaborate with teams to develop innovative web applications that deliver exceptional user experiences and push the boundaries of web development technology.

EDUCATION

North South University <i>Bachelor in Computer Science and Engineering</i>	Dhaka, Bangladesh 2017 – 2022
Shaheed Moshir Rahman College <i>HSC Science</i>	Jessore, Bangladesh 2013 – 2015

EXPERIENCE

Junior Software Engineer <i>Romance Cable Network</i>	Present Jashore, Bangladesh
- Developed a full-stack web application using React JS, Node Js, Express Js, and MongoDB, MySQL. - Developed a REST API	

TECHNICAL SKILLS

Languages: Javascript, Java, C, SQL (MySQL, SQLite), MongoDB, HTML, CSS, Tailwind CSS, Bootstrap, Materialize.css, Firebase, Pythorch, Deep Learning, Machine Learning, Deep Learning
Frameworks: React JS, Next JS, Node Js, Express JS, Django, RestAPI
Developer Tools: Git, VS Code, Visual Studio, PyCharm
Libraries: Pandas, NumPy, Matplotlib
Soft Skills: Teamwork, Communication, Problem Solving, Leadership

PROJECTS

Project Name : Adventure Atlas

Project Overview: This tour guide web application allows users to browse and book various tour packages. Users can view booking status, post tour stories, cancel bookings during the review phase, share stories on Facebook, and post reviews about tour guides. Users can also view their profiles and receive discounts after booking three or more packages.

Tour guides can manage their profiles, and accept or reject user bookings. Admins have the ability to manage profiles, promote users to admin or tour guide, and delete users.

Technology Used

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Firebase
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Authentication:** JSON Web Tokens (JWT)
- **Deployment:** Netlify, Vercel
- **Version Control:** Git, GitHub

Live Link : Adventure Atlas

Project Name : Collab Care

Project Overview: Service-sharing platform designed for browsing, booking, and managing a variety of household services. Users can easily add new services to the platform, book services provided by others, and manage their existing services. The platform also allows users to change the status of their bookings and services, ensuring up-to-date information and smooth coordination. With a comprehensive search feature, users can quickly find and filter available services to meet their specific needs, making household management more efficient and convenient.

Technology Used

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Firebase
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Authentication:** JSON Web Tokens (JWT)
- **Deployment:** Netlify, Vercel
- **Version Control:** Git, GitHub

Live Link : Collab Care

Project Name : LearnOra

Project Overview: A LearnOra is an E-Learning Platform to automate the current manual framework with the help of computerized equipment and undeniable PC programming , satisfying their requirements, so their valuable information or data can be stored for a longer period with easy access and manipulation of the same.

Technology Used

- **Frontend:** HTML5, CSS3, JavaScript,
- **Backend:** Django
- **Database:** SQL Lite
- **Version Control:** Git, GitHub

CERTIFICATES**6.1 Certificate 1**

Certificate Name: Kaggle Computer Vision

Certificate Link : Computer Vision

6.2 Certificate 2

Certificate Name: HackerRank Python

Certificate Link : Python

RECOMMENDATION LETTER

Professor Name: Dr. Shahnewaz Siddique

Position: Associate Professor

University: North South University

Email: shahnewaz.siddique@northsouth.edu

Phone: +88 02 55668200 Ext – 1515

Relationship to Applicant: Research Supervisor
